

PROJECT DESCRIPTION

This project includes all measures necessary to install approximately 3,300 feet of new 12-inch water main along Greenwich Road from an existing capped water main to the intersection with Lake Road, install approximately 900 feet of new 12-inch water main along Lake Road from the intersection with Greenwich to an existing capped water main, and install approximately 100 feet of 12-inch water main along Daniels Road starting at Greenwich Road. The water main will be constructed by open cut and trenchless methods. The work will also include new hydrants, valves, and surface restoration. A below-grade pressure reducing valve vault will be part of this project as well.

Overall project requirements:

- Should a question arise at any time during the examination of Bid Documents or investigation of the site the Bidder may seek clarification by submitting a Pre-bid Question.
